写作大赛
» English Writing Contest

写作大赛赛制

一、比赛目的

大赛主要考查学生的英文书面沟通、跨文化交际、逻辑分析、人文思辨等能力及相关素养，以期通过比赛引领职业院校英语写作教学创新与发展，促进学生英语写作能力和英语应用能力的整体提高，为其未来职场发展和个人可持续发展奠定良好的基础。

二、参赛资格

高等职业学校（含本科职业院校）全日制在籍学生。

三、比赛形式

写作大赛为个人赛，分校赛、省赛、全国决赛三个阶段实施。

☆ **省 赛**

1. **组织方式：** 由各省（市、自治区）工作委员会指定的承办单位组织实施，外语教学与研究出版社驻当地机构协办。

2. **比赛时间：** 大赛指定省赛日期为 10 月 27 日、11 月 3 日。各省（市、自治区）工作委员会须在省赛结束后 3 个工作日内将入围全国决赛的选手名单提交大赛组委会秘书处。

3. **比赛方式：** 登录 "iTEST 智能测评云平台" 写作。比赛不允许携带电子设备，不允许查阅其他资料。

4. **比赛题目：** 由大赛组委会拟定，比赛当场公布。比赛题目在赛前严格保密。赛题分为看文字信息写作和看图表信息写作两部分，写作时间共计 120 分钟。

5. **评委组成：** 评委人数不少于 5 人，须具有副教授以上职称及英语写作教学经验，每所院校（含比赛承办院校）只能有 1 人担任评委。

6. **评分标准：** 评分标准须规范、公平、公正，可参考全国决赛评分标准。比赛前应召开评委会，讨论并确定评分标准。

7. **奖项设置：** 特等奖（3 人，参加全国决赛）、一等奖、二等奖、三等奖。获奖选手的指导教师相应获得指导教师特等奖、指导教师一等奖、指导教师二等奖、指导教师三等奖。每位选手限指定一位指导教师。

☆ **全国决赛**

1. **参赛资格：**省赛特等奖获奖选手。

2. **组织方式：**全国决赛由大赛组委会统一组织实施，组织方式以官方通知为准。

3. **比赛时间：**2024 年 12 月。

4. **比赛方式：**登录"iTEST 智能测评云平台"写作。比赛不允许携带电子设备，不允许查阅其他资料。

5. **比赛题目：**由大赛组委会拟定，比赛当场公布。比赛题目在赛前严格保密。赛题分为看文字信息写作、看图表信息写作、看短文写作三部分，写作时间共计 150 分钟。

"中国教育电视台·外研社杯"职场英语挑战赛写作大赛省赛题型介绍

比赛时间：120分钟

Part I (40 points)

Instructions: You are the manager of the Administration Department. Your company is to introduce an energy saving plan for the office. You need to draft **a memo** (of at least 200 words) to inform employees of the plan. You should not include any real information about yourself in your writing. Pay attention to the format of a memo and make sure you include the following points:
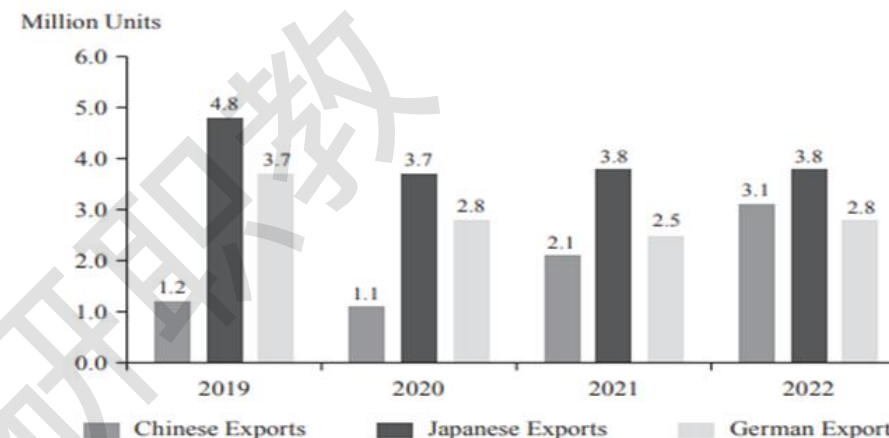

- introduction of the plan;
- reasons for the plan;
- contact details for further enquiry.

题型	字数要求（Words）	分值（Score）
Part I 看文字信息写作	200	40
Part II 看图表信息写作	300	60

Part II (60 points)

Instructions: China surpassed Germany as the second-largest vehicle exporter in 2022. The chart below shows the number of vehicles exported by China, Japan and Germany for the years 2019 through 2022. Write **a report** (of at least 300 words) to describe the chart, analyze the data, and make some comments/suggestions/predictions.

Chinese, Japanese and German Vehicle Exports

Million Units

	2019	2020	2021	2022
Chinese Exports	1.2	1.1	2.1	3.1
Japanese Exports	4.8	3.7	3.8	3.8
German Exports	3.7	2.8	2.5	2.8

Part I (40 points)

Instructions: You are the manager of the Administration Department. Your company is to introduce an energy saving plan for the office. You need to draft **a memo** (of at least ...ation ...e you

Part I (40 points)

Instructions: You are the manager of the Administration Department of a new energy car company, WXL Auto. Your company is to organize a meeting on developing the European market. You need to draft **a notice** (of at least 200 words) about this meeting which will involve the general manager, production, marketing, and regional managers. ...tention

Part I (40 points)

Instructions: You are Justin Jia. You saw a job ad for an after-sales clerk on *China Daily*. You decide to apply for the job by **email** (at least 200 words) to John Smith of WY E-commerce, the hiring manager. You should not include any real information about yourself in your writing. Your email should contain a salutation, a main body and a close. The body of your email should include the following points:
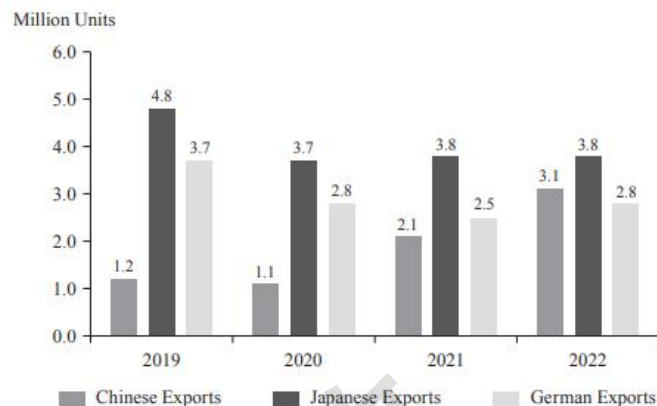

- introduce yourself and express your interest in the position;
- provide your qualifications and skills for the position;
- thank the hiring manager and ask for an interview.

Part II (60 points)

Instructions: China surpassed Germany as the second-largest vehicle exporter in 2022. The chart below shows the number of vehicles exported by China, Japan and Germany for the years 2019 through 2022. Write **a report** (of at least 300 words) to describe the chart, analyze the data, and make some comments/suggestions/predictions.
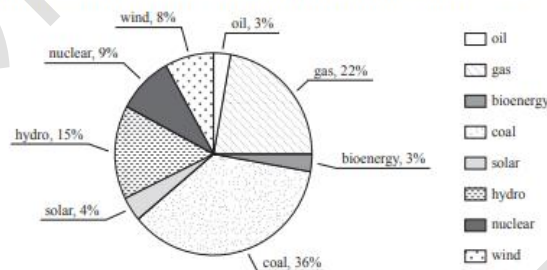

**Chinese, Japanese and German Vehicle Exports**

Million Units

Part II (60 points)

Instructions: The charts below show the proportion of global electricity generated from different sources in 2022 and the proportion of global electricity expected to be generated from different sources in 2050. Write **a report** (of at least 300 words) to describe the charts, analyze the data, and make some comments/suggestions/predictions.

**Proportion of Global Electricity Generated from Different Sources in 2022**

Proportion of Global Electricity Expected to Be Generated from Different Sources in 2050

Part II (60 points)

Instructions: The chart below shows the number of people employed in China's e-commerce sector and its year-on-year growth rate between 2016 and 2022. Write **a report** (of at least 300 words) to describe the chart, analyze the data, and make some comments/suggestions/predictions.

Number of People Employed in China's E-commerce Sector

写作大赛评分标准

评分标准

内容与切题（35%）	内容完整，观点适切
语法与词汇（30%）	语法准确，用词准确、恰当、多样
组织与连贯（25%）	逻辑严密，篇章连贯
格式与字数（10%）	格式正确，字数达标。字数不足，适当减分

Rubrics

Ideas(35%)	1. The writer should focus on the main topic and does not digress from it. 2. All necessary points should be presented.
Grammar, usage and mechanics (30%)	1. Good sentence variety. 2. Precise word choice. 3. Few spelling and grammar errors.
Organization (25%)	1. Clear and logical sequencing of key points. 2. Proper use of cohesive devices.
Format and word count (10%)	1. Standard writing format (e.g. necessary parts of a business letter) should be followed. 2. Minimum word count should be met.

Part II (60 points)

Instructions: The charts below show the proportion of global electricity generated from different sources in 2022 and the proportion of global electricity expected to be generated from different sources in 2050. Write **a report** (of at least 300 words) to describe the charts, analyze the data, and make some comments/suggestions/predictions.

Proportion of Global Electricity Generated from Different Sources in 2022

wind, 8%   oil, 3%   gas, 22%   nuclear, 9%   hydro, 15%   solar, 4%   bioenergy, 3%   coal, 36%

oil, gas, bioenergy, coal, solar, hydro, nuclear, wind

Proportion of Global Electricity Expected to Be Generated from Different Sources in 2050

oil, 0%   gas, 7%   bioenergy, 3%   coal, 4%   wind, 29%   nuclear, 2%   hydro, 7%   solar, 48%

oil, gas, bioenergy, coal, solar, hydro, nuclear, wind

英文图表写作要求

Carefully read the chart

Before writing, it is necessary to carefully read the chart to understand its theme and background, as well as the information and data contained within it.

Accurately describe the chart

When writing, it is necessary to accurately describe the information and data in the chart, and pay attention to using accurate vocabulary and grammar for expression.

Deeply analyze the data

When writing, it is necessary to conduct in-depth analysis and interpretation of the data in the chart, and explore the reasons and significance behind it.

Reasonably arrange the structure

When writing, it is necessary to arrange the structure reasonably, organize it in the order of introduction, chart description, analysis, and conclusion, and ensure that the article structure is clear and reasonable.

Introduction

Briefly introduce the theme and background of the chart, and introduce the analysis and discussion in the following text.

Chart Description

Provide a detailed description of the information and data in the chart, using accurate vocabulary and grammar to express it.

Analysis

Conduct in-depth analysis and interpretation of the data in the chart, exploring the reasons and significance behind it.

Conclusion

英文图表阅读步骤

Identify the main topic or theme of the chart   确定图表主题

Before writing, it is important to understand the main topic or theme of the chart, which will help you capture the core information accurately.

Identify chart type   识别图表类型

Determine the data display method and focus based on the chart type (such as bar chart, line chart, pie chart, etc.).

Understand the data presented in the chart   分析图表数据

Carefully analyze the data presented in the chart, including the trends, patterns, and outliers.

Extract key data   提取关键数据

Select key data points from the chart, such as maximum, minimum, average, etc., to provide a basis for analysis.

Summarize the key findings 总结数据发现

Based on your analysis, summarize the key findings of the chart in a concise and clear manner.

英文图表数据分析

Trend line analysis   趋势分析

By drawing a trend line, observe the changing trend of data, such as rise, fall, fluctuation, etc.

Periodic analysis   周期分析

Identify whether there are periodic patterns in the chart, such as seasonal changes, cyclical fluctuations, etc.

Correlation analysis 关联分析

Explore the relationships between different data in the chart, such as positive correlation, negative correlation, and no correlation.
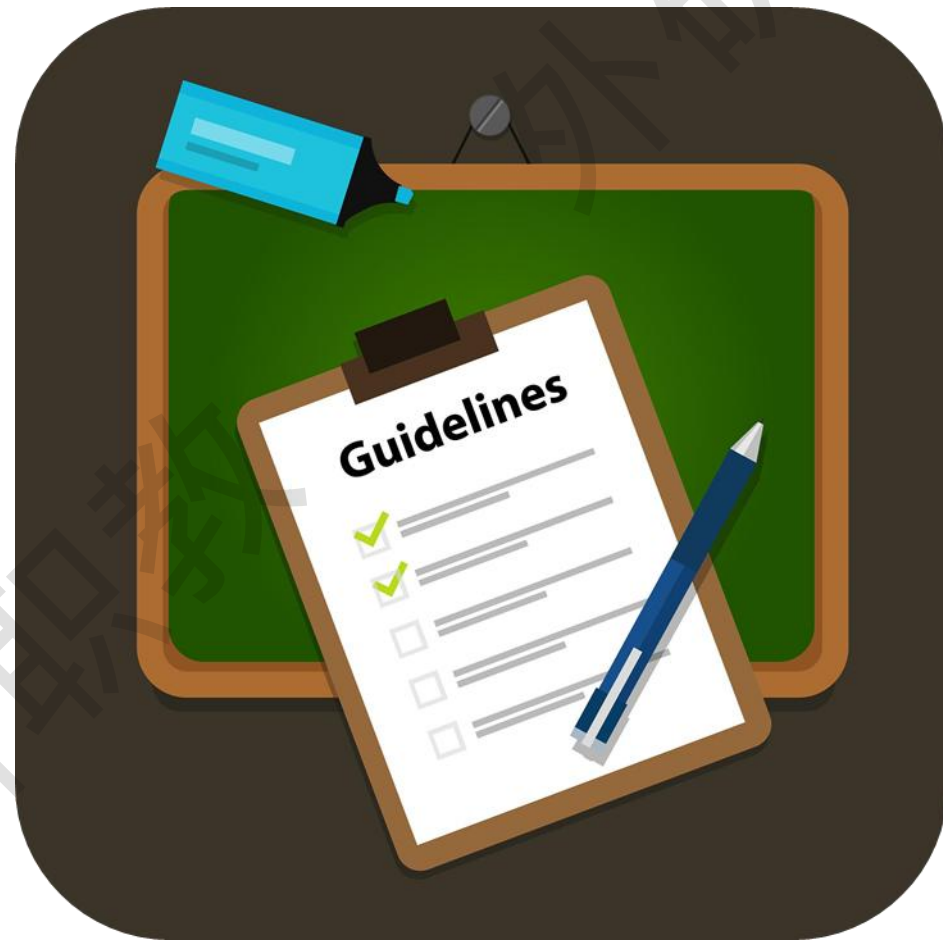

英文图表数据分析

Data comparison 数据比较

Compare the data in the chart, such as comparing between different time periods and categories, highlighting differences and changes.

Comprehensive analysis 综合分析

Conduct a comprehensive analysis of the data, trends, patterns, etc. in the chart to form a comprehensive understanding and comprehension, providing strong support for writing.

Three Steps in writing

Introduction ➡ **understand and describe the overall message**

Body paragraph ➡ { **describe the specific information**
analyze the reasons

Conclusion ➡ **summarize or express personal views**
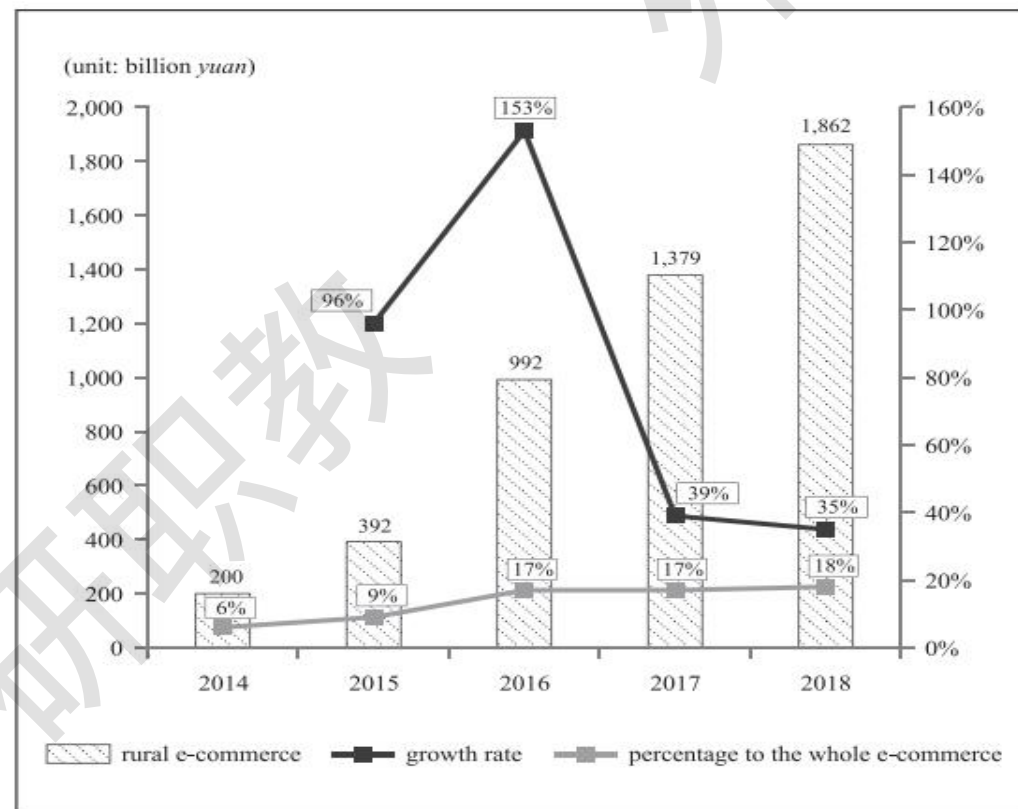

Step 1 Introduction

understand and describe the overall message

The given chart vividly shows the development in China's rural areas concerning e-commerce from 2014 to 2018, including the total transaction, growth rate and percentage to the whole e-commerce.

Part II (40 points)

Directions: The chart below shows the development of e-commerce in China's rural areas between 2014 and 2018. Write **a report** (of at least 250 words) in which you describe the chart, analyze possible causes reflected within, and make some predictions/suggestions/comments.

(unit: billion *yuan*)

Legend: rural e-commerce — growth rate — percentage to the whole e-commerce

## Step 1 Introduction

understand and describe the overall message

The graph illustrates the areas of urban green space in China and annual growth rates between 2015 and 2020.

Part II (60 points)

Instructions: The chart below shows the areas of urban green space in China and year-on-year growth rates from 2015 to 2020. Write **a report** (of at least 300 words) to describe the chart, analyze the data, and make some comments/predictions/suggestions.

(million hectares)

	2015	2016	2017	2018	2019	2020
Urban green space	2.67	2.79	2.92	3.05	3.15	3.31
Year-on-year growth rate	5.5%	4.5%	4.7%	4.5%	3.3%	5.1%

Urban green space — Year-on-year growth rate

2024

Step 2 Body paragraph ➡️ describe the specific information analyze the reasons

Main feature 1

2021

Main feature 2

Main feature 3

The chart firstly shows the transaction number of ... ...commerce continues to rise over the past four years, from 200 billion yu... ...1862 billion yuan in 2018, and skyrockets during the years between 2... ..., of which it mushrooms a total of 600 billion yuan. It then increa...es at a rapid speed, from 992 billion yuan in 2016 to 1862 billion yuan in 2018. Next the chart sees two predominant growth rates in 2015 and 2016, which are 96% and 153%, but later the rate drops to 39% and 35% in the years 2017 and 2018. The third item displayed in the chart is the percentage to the whole e-commerce which keeps increasing from 6% in 2014 to 17% in 2016 and remains relatively the same in 2017 and 2018.
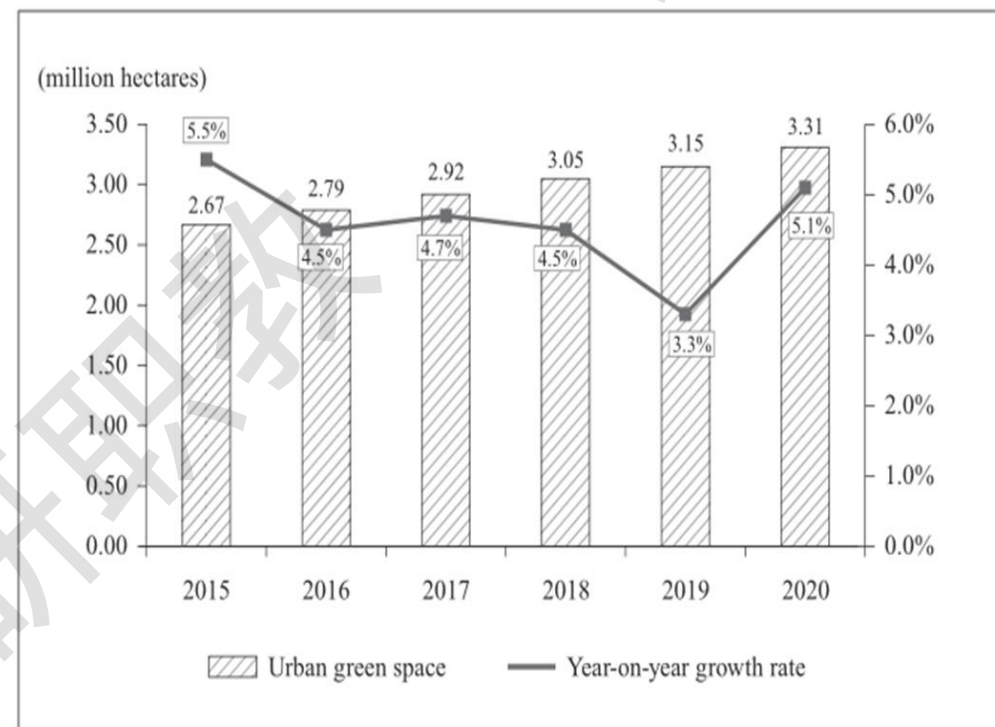

Step 2 Body paragraph

Looking from an overall perspective, it is readily apparent that the areas of urban green space showed a steady upward trend from 2.67 million hectares in 2015 to 3.31 million hectares in 2020, while the year-on-year growth rate saw considerable fluctuations.

As the graph reveals, the annual growth rates declined significantly from 5.5% in 2015 to 4.5% in 2016, then remained stable for the next two years, and continuing to diminish remarkably again and ultimately witnessed an abrupt increase of 3.3% in 2019 to 5.5% in 2020.

Part II (60 points)

Instructions: The chart below shows the areas of urban green space in China and year-on-year growth rates from 2015 to 2020. Write **a report** (of at least 300 words) to describe the chart, analyze the data, and make some comments/predictions/suggestions.
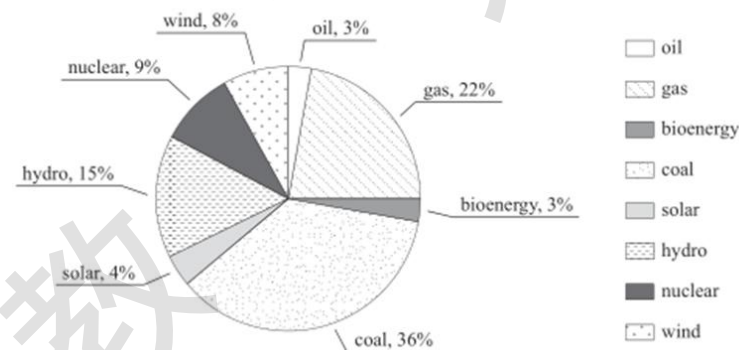

Step 2 Body paragraph

2023

The above two pie charts vividly depict the current proportion and the expected one of global electricity generated from different sources in 2022 and in 2050, both of which are divided into eight parts. For the former chart, non-renewable energy resources take the lead, with coal and gas accounting for 36% and 22% respectively. For the latter part; however, renewable energy sources are expected to catch up, with 48% of solar energy and 29% of wind energy taking up over half of the total sources. What makes this dramatic change? Simple as the chart looks, its implicit meaning should be thought-provoking.
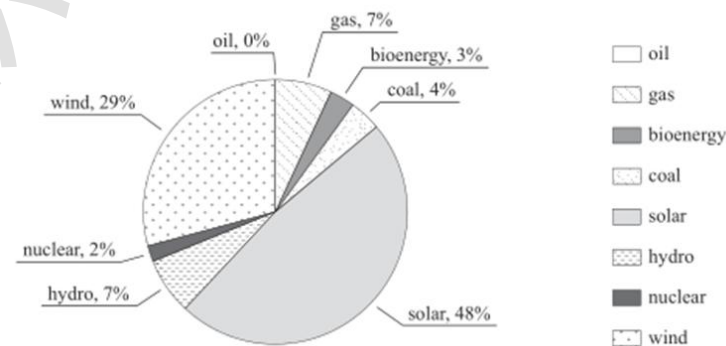

Part II (60 points)

Instructions: The charts below show the proportion of global electricity generated from different sources in 2022 and the proportion of global electricity expected to be generated from different sources in 2050. Write **a report** (of at least 300 words) to describe the charts, analyze the data, and make some comments/suggestions/predictions.

Proportion of Global Electricity Generated from Different Sources in 2022

wind, 8% | oil, 3%
nuclear, 9%
gas, 22%
hydro, 15%
bioenergy, 3%
solar, 4%
coal, 36%

oil
gas
bioenergy
coal

wind

Proportion of Global Electricity Expected to Be Generated from Different Sources in 2050

oil, 0% | gas, 7%
bioenergy, 3%
wind, 29%
coal, 4%
nuclear, 2%
hydro, 7%
solar, 48%

oil
gas
bioenergy
coal
solar
hydro
nuclear
wind

Step 2 Body paragraph ➡ describe the specific information

analyze the reasons

上升： increase, rise, grow, soar, shoot up

下降： decrease, fall, drop, descend, decline, reduce, plunge

平稳： remain, steady, gradual, stay/ remain/ maintain/ keep/ be the same

波动： fluctuate, rise and falls up and down

最高点： reach the peak, reach the highest point, reach the zenith

最低点： reach the bottom

占据： occupy, take up, account for

表复苏： recover, bounce back

Step 2 Body paragraph ➡ { **describe the specific information**
analyze the reasons }

Commonly used adjectives and adverbs 常用形容词和副词 — 变化程度

sudden(ly)   dramatic(ally)   abrupt(ly)   drastic(ally)

quick(ly)   rapid(ly)   marked(ly)   significant(ly)

sharp(ly)

considerable (considerably)   substantial(ly)   moderate(ly)

gradual(ly)   slight(ly)   enormous(ly)   vast(ly)

Step 2 Body paragraph ➡️ { **describe the specific information** **analyze the reasons** }

A 描述对象➕showed a/an upward/downward trend➕ from

➕具体数据➕时间点➕to➕具体数据➕时间点

B 描述对象➕experienced a fall/rise➕between➕具体数据

➕时间点➕and➕具体数据➕时间点

Sentences describing general trends in data changes

描述数据变化的总体趋势

Step 2 Body paragraph ➡️

describe the specific information

analyze the reasons

A 描述对象 ➕表示增长 / 减少的动词 ➕程度副词 ➕数据 ➕时间点

B There was a ➕表示程度的形容词 ➕表示增长 / 减少的名词

➕数据 ➕时间点

Sentences describing the rise or fall of data

描述数据的上升或下降

Step 2 Body paragraph ➡

describe the specific information

analyze the reasons

A 表示总量第一或占比例第一➕ at ➕ 具体数据➕ followed by 排名第二的对象

➕ 表示占比例的词或词组➕具体数据

B 表示总量第一或占比例第一➕ at ➕ 具体数据，

while 排名第二的对象➕ 表示占比例的词或词组➕具体数据

Sentences indicating how to order

如何排序

Step 2 Body paragraph ➡ **describe the specific information**
analyze the reasons

By contrast, /
By comparison …

Compared
with sth, …

Sentences
expressing
contrast

如何表示对比

A similar pattern
was repeated for …

A sharp contrast was
illustrated in …

On the
contrary, …

Contrary to …

Step 2 Body paragraph ➡ analyze the reasons

Three factors can account for the changes of the e-commerce in rural areas. On mention first is the advanced technology. Recent years have witnessed a spurt of development in technology. A case in point is the advent of live-streaming. Through popular apps like Kuaishou and Tiktoc, farmers in rural areas can be able to introduce their products to the whole nation, which leads to the significant increase of transaction number. Next is the policies of Chinese government. With the high emphasis on poverty alleviation and a strong will to help promote the basic construction of the government, these years China has implemented a set of policies and put tremendous efforts to develop/ enhance the economy of suburbs. From the 14th-Five Year Plan to the promotion of e-commerce in rural areas, China has already walked a long distance. The last one is the regulation on the network. As it is vividly depicted, the growth rate drops from 2016 to 2017. The reason that can account for this phenomenon is the strengthening regulation toward the products sold on the Internet. Chinese government's aim is not just stimulating and promoting the sales, but it also puts high emphasis on the quality of the products. As a result, the regulations implemented in 2016 enables customers to purchase goods without worries?? and leads to the low growth rate.

Step 2 Body paragraph ➡ analyze the reasons

Analyzing the cardinal features of the graph, we can immediately perceive that people have payed more attention on harmonious coexistence between man and nature. Some factors may cause such changes. The related authorities are gradually implementing more and more influential policies and legal norms to facilitate green development and to reinforce the reforms, which attribute to the construction of urban greening. A case in point is an important concept of development which mentioned by **President Xi**, that is "lucid water and lush mountains are invaluable assets." However, as we can see that the annual growth rates seesawed up and down, what resulted in the changes above? For one thing, when people choose the tree species in the construction of urban greening, it is common to rely too much on a single or a few tree species. This phenomenon may severely weaken the ecosystem's ability to withstand pests and diseases. For another, relevant departments lack an inadequate management system which leads to untimely weeding or pruning work. However, when it comes to 2020, that is a critical and decisive year of **the 13th Five-Year Plan** for large-scale land greening activities, the sharp increase of the annual growth rate shows people's strong awareness of caring for nature.

Step 2 Body paragraph ➡ analyze the reasons

To start with, **the determination and emphasis on building an environment-friendly society contribute to this change**. Humans are now facing unprecedented environmental challenges such as global warming and ozone depletion. Therefore, it has been a must for people, government and even countries to seek out solutions to tackle with the challenges. Fortunately, many countries have already realized the importance and showed their resolution. Take it as an example, COP28 United Nations Climate Change Conference called for tripling global renewable energy capacity by 2030. With more nations uniting together to deal with the common issue, the transition from non-renewable energy resources to renewable energy sources would be smooth and natural.

Apart from that, **the advancement of technologies will make the change a reality**. Without the leverage of necessary techniques, determination itself can hardly work out. Luckily, an increasing number of research and experiments have proved the possibility of switching traditional resources to new energy resources. As Belinda Schaepe, China policy analyst at the Centre for Research on Energy and Clean Air, puts it, "China's investment and production of green technologies were key drivers in contributing to diversifying supply chains and offering technology transfer." Should more countries reinforce investment on new energy resources development, the expected statistics will become the real things.

Step 3 Conclusion ➡️ **summarize or express personal views**

Useful phrases and expressions

in a word ,
in short ,
to sum up ,
in conclusion ,
personally speaking

① We can draw the conclusion that…

② From the sharp rise / decline in the chart, it goes without saying that…

③ It can be concluded that….

④ From the above discussion, we have enough reasons to predict what will happen …

⑤ The trend described in the table will continue for quite a long time if necessary measures are not taken.

⑥ As far as I'm concerned, I hold the view that…

⑦ I'm sure my opinion is both sound and well-grounded.

Step 3 Conclusion ➡ summarize or express personal views

2021

Apparently, significant achievements have been made during these years. As far as I'm concerned, the development of e-commerce in China's rural areas is expected to have a promising future. Recently, China has just shaken off poverty successfully, which indicates that Chinese ongoing efforts paid off. However, shaking off poverty is not the finishing line, but the starting point of a new life. China's aim is not just to be out of poverty, but to ensure the well-being of each person. Under that circumstances, China will continue to work with added energy in the e-commerce field to boost the economy and all the criteria in this chart is expected to see a rise in the foreseeable future.

Step 3 Conclusion ➡️ summarize or express personal views

2022

As a result, the government and relevant departments are supposed to pay more attention to advocating the importance of protecting nature. Meanwhile, it is essential for them to work out comprehensive strategies to strengthen people's awareness. In addition, as a youngster, I deem that it is advisable for everyone to respect nature and protect nature, so as to build a homeland of harmonious coexistence between man and nature. We are living in an era both fraught with challenges and full of hopes. If we try our utmost to do so, a bright future will beckon. For the sake of our common better future, we need to join hands and start a new journey of high-quality development for humanity.

Step 3 Conclusion ➡ **summarize or express personal views**

2023

To sum up, the above-mentioned facts can naturally lead us to the conclusion that great importance should be attached to the development and acceleration of renewable energy sources. People can start from small. Social media should promote the publicity of it and countries must lay much importance on this matter. Only in this way would humans embrace an environment-friendly future.

英文图表作文写作注意事项

Avoid grammar errors 避免语法错误

Ensure correct sentence structure, subject verb agreement, and appropriate use of tense and voice.

Avoid spelling errors 避免拼写错误

Check if words are spelled correctly and avoid using incorrect words or abbreviations.

Avoid logical errors 避免逻辑错误

Ensure clear logic in the article, natural transitions between paragraphs, and avoid contradictory or irrelevant arguments.

英文图表作文写作注意事项

Use the correct tense   时态正确

Choose an appropriate tense to describe the time period reflected in the chart, such as the present simple tense, past simple tense, or present perfect tense.

语态适当   Use appropriate voice

Choose active voice or passive voice according to writing needs to make sentence expression more accurate and vivid.

Maintain consistency in tense and voice   保持时态语态一致

Throughout the article, maintain consistency in tense and voice to avoid confusion or ambiguity.

英文图表作文写作注意事项

Objectively describe chart information   客观描述

When describing chart information, maintain an objective and fair attitude, avoiding exaggerating or reducing facts.

Avoid subjective speculation   避免主观

Do not interpret chart information based on your own subjective assumptions, but analyze and discuss based on the objective facts reflected by the chart itself.

Respect data and facts   尊重事实

When analyzing and discussing chart information, respect data and facts, and avoid using inaccurate or unverified information.

图表作文备赛策略与建议

Practice writing different types of charts 练习多类型

Practice writing different types of charts, such as bar charts, line charts, pie charts, etc., to become familiar with the writing methods and techniques of various charts.

Regular writing practice 练习有规律

Regularly practice writing, with a limited time limit for each practice to improve writing speed and efficiency.

Reflection and revision 反思有落实

After completing the writing, reflect and revise to identify one's own shortcomings and make improvements.

图表作文备赛策略与建议

Accumulate common vocabulary for chart writing
积累常用词汇

Accumulate commonly used vocabulary for describing charts, data, trends, etc., such as increase, decrease, fluctuation, peak, etc.

Learning common sentence patterns in chart composition
积累常用句式

Learn and master common sentence patterns in chart composition, such as describing data changes and comparing different data.

Read sample essays and learn expression methods
积累优秀范文

Read excellent chart essay samples and learn their expression methods and writing skills.

图表作文备赛策略与建议

Focus on social hot issues   关注热点

Pay attention to current social hot issues, understand relevant background knowledge and data, and provide materials and inspiration for writing.

Expand knowledge and perspective   拓展视野

By reading, watching news, documentaries, and other methods, broaden one's knowledge and perspective, and enhance the ability to understand and grasp the theme of graphic composition.

Multi perspective thinking   多维思考

For the same problem, try to think and analyze from different perspectives to cultivate your critical thinking and innovation abilities.
